The restaurant has seating for around 100 inside and 120 on the private garden terrace and 80 in the very busy market square. The unique and beautiful exterior façade is a listed building and is one of the first houses that existed in Alaro...On the ground floor is the restaurant and kitchen, a beautiful Mediterranean garden with lots of privacy, a great covered terrace where many guests can sit. On the 1st and 2nd floor is the hotel with a total of 8 large double rooms. The rooms are all equipped with air conditioning. ..Also we have a central heating system via a heat pump, and there again loose solar panels could be mounted. Other facilities include: Garden with pool, parking with 10 parking spaces, 60m² large garage For another four vehicles, so that here in the middle of a beautiful, high-quality and popular village have a hotel and restaurant with 14 parking spaces, these very rare on the island.
